Reckless Motor Driving

With the approach of spring the time drives when once again the roads and highways of the country will be thronged with tens of thousands of automobiles and the streets of our larger cities jammed with traffic. Soon 2,000,000 motor vehicles will be on the roads, and the danger to our country and population to summer resorts and other vacation spots will engage the attention of the residents of all urban and rural localities.

It is the result to be anticipated of almost any high record number of fatalities arising out of automobile accidents. In 1931 to 1932, for example, 4,000 out of our much vaunted civilization with as much recklessness in automobile driving and reckless driving as were recorded in 1930? And the more and better highways being provided all over the country to have the tragic outcome of driving adding to the death toll between people and motor vehicles.

Recent figures published for the city of Regina show a very large increase in the number of accidents recorded in 1930 as compared with previous years, and what is true of Regina is true of practically every city in Canada and the United States.

A related statistic is a recent issue, dealt with the rising death toll due to reckless automobile driving across the line. While these figures apply only to the United States, they demonstrate a state of affairs which is equally applicable to Canada. A few of the facts established may be of interest.

Motor accidents in the United States, in 1930, killed 25,000 people, and totaled more than 900,000. In other words, one million victims. More than 5,000 children under five years of age were killed, and more than 10,000 were injured.

It is estimated that the World War did not cause a greater toll of American lives in battle.

Recklessness as it may seem, this magazine considers that the most encouraging aspect of this appalling loss in the fact that recklessness was its principal cause, saying: "If carelessness and carelessness killed and injured so many, carelessness and carelessness killed and injured so many."

Evidence goes to show that the majority of accidents occurred on crowded and dry roads with experienced and normal drivers.

Drivers at the wheel. In an overwhelming majority the machine function properly; the man was at fault. He took unexcusable chances.

It is a striking analysis of accident reports from forty states, a well known insurance company despite many unexcusable citations on this subject. Summary is a condensed report of the Bureau of Motor Vehicle Statistics.

Young men at their best physical development were the worst offenders. The Bureau of Motor Vehicle Statistics.

Improper driving and nothing else was responsible for more than two-thirds of all the deaths and injuries recorded in 1930. Speeding, driving on the wrong side of the road, and failure to grant right-of-way, all evidence of reckless driving, accounted for 60 per cent of the accidents.

Other violations of the laws as well as of common sense took a heavy toll. Failure to signal caused the deaths of 450 persons and accounted for the injuries of 65,000. More than 80,000 accidents resulted from motorists driving of the roadway. The heaviest single cause of accidents, however, was the improper attempt to take the right-of-way from some other traveler.

It might be expected, week-end driving is most hazardous. Sunday is the worst day for fatality and injuries.

There was a time when defective construction of cars, poor brakes, etc., were held responsible for most accidents. Today the fact has been well established that as drivers are not so good as the cars we operate. More have been learned in operating a motor car.

It is a fact that the majority of accidents occur on crowded and dry roads with experienced and normal drivers.

When you drive, remember, says this magazine writer, that a lot of deaths in the motor car may be traced to the driver's failure to observe the rules of the road and road signs, and occasional drivers, as well as against established pedestrian and highway rules. It is not sufficient to say that have made your contribution to national safety and, incidentally, you will not get any pleasure out of the use of your car.

World's Leading Flyer

Frank Aviator Wins Paris-Hotel

Diomedes, Count, Paris-Hotel, who has been designated the world's premier aviator, was awarded the honor of the International League of Aviators.

Mr. Aviator, who flew from London, England, to Australia, via New York, was awarded the honor of the International League of Aviators.

Count's only rival at the committee was Wing Commander Charles Kingsford-Smith, the Australian "ace," and the President was chosen because he holds the world records in almost every class.

The committee also ordered plagues to be struck to honor Mr. Victor Bruce, Margie, Burtie and Mrs. Charles Lindbergh.

Dr. Hugo Becker was designated the world's premier dirigible pilot.

To Speed Up Traffic

Shewen Banned From London Street

During Certain Hours

For the first time in the history of London, horse traffic is to be forbidden from one of the city's principal thoroughfares.

The ministry of transport has announced that horse-drawn carriages, carrying passengers, will be banned from the city of London during certain hours.

The ban will be in effect from 10 a.m. to 6 p.m. on all days except Sundays and public holidays.

The ban will be in effect from 10 a.m. to 6 p.m. on all days except Sundays and public holidays.

La Grippe and "Flu" are Spreading

"Flu" First Appears as a Sore Throat, but Gains Tremendous Headway in Six Hours

AN EFFECTIVE TREATMENT DESCRIBED

Nearly every case of "Flu" starts with a simple cold. It is often mistaken for a cold, but after just a little hours—soon the infection goes lower—the chest is affected. A safe remedy is to gargle the throat three times daily with "Nerviline" which will keep the throat free from germs.

Lightness in the chest, rub on Nerviline—every drop penetrates, deeply—congestion disappears, the cold disappears.

Many a dangerous case of "Flu" can be avoided by this simple home treatment. Know your "Nerviline" is your best friend.

Nerviline is for Coughs, Colds, Sore Throat, and the little ailments that arise in every family. Nerviline is most home called "Mother's Best Friend." 35c at all dealers.

Wealth of Indian Princes

Delegates To Round Table Conference, in London, England, Spent

It would be interesting to know how approximately how much money the Indian Princes spent in London, England, during the Round Table Conference.

The delegates to the Round Table Conference in London, England, spent a considerable sum of money in the West End of London.

The delegates to the Round Table Conference in London, England, spent a considerable sum of money in the West End of London.

Local and District

BIRTH

THOMAS—Born to Mr. and Mrs.
William Thomas, of the Hand
Hill, at Drumheller Hospital, on
March 14th, 1931, a son.

Order sheet, \$1.85 per cent.
off cash. \$3.00 per cent. Why
pay more? See Clark—Advt.

Mr. J. McLaughlin, of Pictou,
Nova Scotia, and a former west
paper man in the west, was in town
for a day or two this week on his
way to Calgary.

The set of lantern slides, "The
Other Wise Man," were false up to
expectation. They were shown to
good audience in Verdant Valley
and Micheline, and to a packed
church in Delia. The story is Van
Dyke's masterpiece.

A shower was held in honor of
Mrs. E. Carter, in Coates' Hall last
Saturday. We understand about 75
ladies were present, all told, to pre-
sent her with numerous and useful
gifts, and the bride, "let
cousins" on the day of matrimony.

Delia's career' musical whirl and
dance, in the Olympia Theatre
tomorrow (Friday) night. Cards at
8:30 sharp. Lunch served at 12.
Good music, and the bride "let
cousins" on the day of matrimony.

The regular monthly meeting of
Enterprise Social Club met in the
home of Mrs. A. W. Harrison re-
cently. A large number of guests
were there. There was a good at-
tendance, and a very enjoyable evening
was spent. The next meeting will
be at the home of Mr. Dick Miles.

The Grand Grand of Gish, one of
the great wonders of the world, is
a most interesting monument
of antiquity. A study of this wonder
will repay the time spent on it.

Parents and Their Children

Based upon the findings of Alberta
division of the National Council
on Mental Hygiene and the In-
terpretation of Statistics, University
of Alberta.

By E. K. Kibbenhew, M. A.,
Department of Philosophy.

A Study in Individuality
"Glad to meet you, I feel sure," said
the mother, who was a most
troubled. She always says me and
give me a little more of the same
able to be slower and so full of life that
of course, she must always be doing
this.

Mrs. Deas was paying a visit to the
Grades 1 teacher, Miss Deas. She
and her young son, who was a most
troubled, she always says me and
give me a little more of the same
able to be slower and so full of life that
of course, she must always be doing
this.
